DotWave
Connecting the Dots

Capabilities Statement

DotWave Solutions is a cybersecurity consulting firm founded by award-winning professor, Dr. Oludotun "Dot" Oni. We navigate our clients through the ever-changing landscape of technology, implementing solutions to protect them amidst imminent cyber threats. We guide organizations leveraging industry best practices to improve their security posture and mitigate their risk. We address cyber and IT staff shortage issues in organizations through our staffing and training programs. We also help organizations meet security compliance requirements such as PCI-DSS, HIPAA, CMMC, NIST, and more.

We have a wide range of information security services covering several major industries such as government, private enterprise, healthcare, and more. Our mission is to ensure the confidentiality, integrity, and availability of each client's data.
