CAPABILITIES STATEMENT

DotWave
Connecting the Dots

DotWave Solutions is a cybersecurity consulting firm founded by award-winning professor, Dr. Oludotun "Dot" Oni. We support public sector and regulated organizations with hands-on defense operations and executive-level cyber advisory. Guided by integrity, dedication, and faith, our mission is to help our clients build lasting resilience and operate with confidence in a rapidly changing digital environment.

CORE COMPETENCIES

- **Cyber Advisory & Assessment Services:**
  - Penetration Testing & Threat Emulation
  - Governance, Risk, & Compliance (NIST, CMMC, NERC CIP)
  - Incident Response Planning & Readiness

- **Cyber Technical Support Services:**
  - RMF / ATO Lifecycle Suport
  - SOC & CSIRT Staff Augmentation
  - Security Architecture & Zero Trust Implementation

DotWave Defense™

AI-Driven Managed Detection & Executive Cyber Oversight
For Public Sector & Regulated Environments

- 24x7 Managed Detection & Response
- Executive (vCISO) Governance & Accountability
- Incident Management & Program Development

PAST PERFORMANCE

DotWave has delivered cybersecurity technical and advisory engagements within federal and highly regulated sectors

Representative Engagements:

- **Federal Civilian Agency** – Conducted manual penetration testing, security control validation, and vulnerability remediation within a federally regulated IT environment.
- **Energy Infrastructure Provider** – Delivered DevSecOps engineering and system hardening support across critical infrastructure systems.
- **Regulated Utility Organization** – Provided long-term SOC staff augmentation and scalable IT security engineering support.
- **Higher Education Institution** – Led cybersecurity program development, governance, and executive advisory oversight.
- **Regulated Financial Services Organization** – Implemented AI-Driven managed security aligned with enterprise risk management objectives in a highly regulated environment.

DIFFERENTIATORS

- **Structured 24x7 cyber defense program integrating managed detection & response with executive oversight**

- **Advanced technical expertise beyond automated tooling, including manual penetration testing and adversary emulation**

- **Experience supporting Federal and SLED agencies operating in mission-critical environments**

- **Acquisition-ready delivery across task orders, firm-fixed-price, and labor-hour engagements**

- **Ongoing investment in workforce development enabling scalable mission support aligned to contract requirements**
